Welcome Message

Introduction

Greetings, my name is Rohit Jain, and I am representing Viant Organics Private Limited, an aspiring pioneer force in the organic food industry. At Viant Organics, we recognize that the choices we make today shape the world of tomorrow. Our commitment extends beyond mere business – it's a pledge to foster a sustainable future for our planet and its people.

- Director

About Us

Who We Are

Welcome to Viant Organics - where a commitment to organic excellence meets the passion for sustainable farming. Founded with a vision to redefine the future of agriculture, we are more than just an organic food producing company. We are a movement, a commitment, and a catalyst for positive change.

Our Director's Vision

Central to our commitment is our 35-hectare organic farm owned by our visionary director, Mr. Vasudev Dodiya. With over 5 years of hands-on experience in the field of organic farming, Mr. Dodiya is not just a director but a pioneer. His dedication to sustainable practices and his intricate knowledge of organic farming techniques guide every aspect of our operations.

Our Mantra's

“Sustainability At Heart
Quality Assurance
Empowering Farmers
A Healthier Tomorrow”

Our Vision & Mission

Movement Goal

Vision

Our mission is twofold: to empower farmers and elevate the global organic market. By championing organic farming, we not only ensure the health of the environment but also contribute to the well-being of individuals.

Mission

We envision a future where the connection between sustainable agriculture and human health is at the forefront of global consciousness.

The Problem Statement

#Harmfuleffects

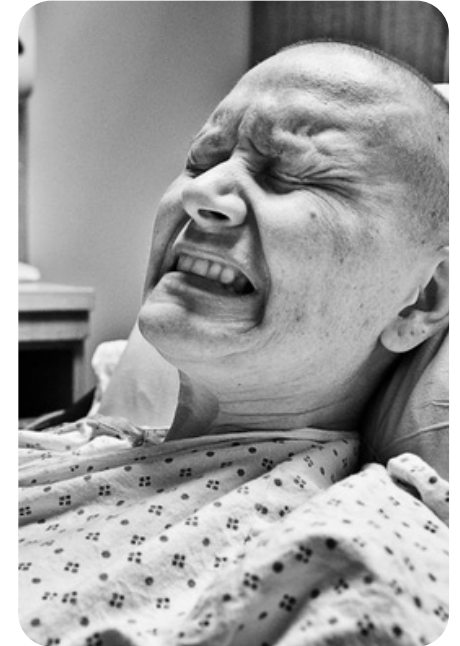

Harmful Pesticides

Traditional farming practices often involve the use of harmful pesticides.

Soil Degradation

And it contribute to soil degradation and leads to Drought.

Health Ailments

This has direct consequences on the quality of our food and, subsequently, our health.

The Solution

Problem Solving Idea

Our unique model goes beyond organic farming; it's a holistic approach that encompasses the health of both the land and the people who depend on it. By partnering with farmers and implementing an internal control system, we ensure that the organic produce reaching your plate is not only environmentally friendly but also rich in nutrients, contributing to a healthier lifestyle.

Number Of Farmers Associated

Marketing

B2B

In our B2B marketing strategy, we aim to forge dynamic partnerships with MNCs and international brands, offering tailored white-labeling services that align seamlessly with their brand identities. Our commitment to organic excellence, sustainability, and quality assurance positions us as the ideal collaborator for organizations seeking to enhance their product offerings. By choosing our white-labeling services, MNCs and international brands not only benefit from premium organic products but also gain a competitive edge in the market. Additionally, we are eager to extend our reach to hotel chains, providing them with a range of high-quality organic products that elevate their culinary offerings. Our approach involves understanding the unique needs of each partner, ensuring a collaborative process that delivers excellence from conceptualization to product delivery. Join us in this journey of innovation, where we redefine the landscape of organic products and empower brands to make a lasting impact in the global market.

Conclusion

In conclusion, Viant Organics is not just about organic farming; it's about creating a ripple effect that extends to the health and well-being of individuals. We believe that a healthy human being leads to a brighter future. Join us in this journey towards sustainability, where every choice we make today paves the way for a healthier and more vibrant tomorrow."

By emphasizing the connection between organic farming, sustainability, and human health, you create a narrative that resonates with the broader vision of a healthier and more sustainable future.
